Dear Diane,

As Change Food turns one year old, we look at all we've accomplished. We also published a new article in Zester Daily and welcomed an Advisory Board member, and we're gearing up for the 10th anniversary of The Meatrix.

Change Food Year in Review

Change Food is celebrating its 1st anniversary. We took a look back at our work over the past 12 months, including TEDxManhattan 2014 and our "Storytelling & Food" Salon, as well as plans for exciting new projects. You can see an overview of our activities on our site.

In addition, The Change Food website, www.changefood.org, was recently revamped with a fresh look that's easier to navigate. Take a look and tell us what you think!

"The Meatrix" Turns 10 at TEDxManhattan

The Meatrix, an animated short film about factory farming that became a viral sensation, will mark its 10th anniversary at TEDxManhattan 2015. Change Food Founder & Executive Director Diane Hatz is the Executive Producer of the award-winning short, which has been viewed millions of times, along with its two sequels. Stay tuned for more details! (The Meatrix is brought to you by GRACE Communications Foundation's Sustainable Table program.)
Stefani Bardin Joins Change Food Advisory Board

We are very pleased to welcome Stefani Bardin to our Advisory Board. Stefani's work explores the influences of corporate culture and industrial food production on our food system and the environment. Her video showing how the human body responds to processed versus whole foods, shown at TEDxManhattan 2012, has been viewed approximately 3 million times.

To learn more about our advisory board, visit our site. If you or anyone you know would be a good addition to the creative brain trust being developed through Change Food, please let us know who and why at changefood@changefood.org.

Change Food in Zester Daily: Bitty Foods' Megan Miller

Change Food's partnership with Zester Daily, the award-winning online destination for food, wine and travel enthusiasts, continues with an article on Bitty Foods' Megan Miller, who spoke at TEDxManhattan 2014 about eating insects. Watch her talk.

Sponsor TEDxManhattan 2015

We're looking for sponsors for TEDxManhattan 2015, scheduled for March 7, 2015, at The TimesCenter. TEDxManhattan has developed a reputation for giving national exposure to new and emerging ideas and organizations in the food and farming arena, and sponsorship represents an opportunity to reach an audience passionate about sustainable food. More information can be found here, or email pam@changefood.org.

We'll be back with more news next month.....

Eat well!

Diane and Pam
